

Maintenance Agreements

Our Maintenance Agreements come in three types. There is the Air Conditioning Service, Heating System Service and the Plumbing Protection Program. Each includes one maintenance visit, priority customer status, and 15% off all services for 12 months.

Heating System and Air Conditioning System Maintenance Services

Our professional service technicians understand your heating and air conditioning systems and can eliminate money-wasting problems.

We have developed a customized program that addresses the problems we see most often. The comprehensive Maintenance Agreement we offer is designed to:

- Reduce the possibility of an heating or air conditioning breakdown.
- Reduce your utility and repair costs.
- Provide preferential emergency service if the need ever arises for any or all of our services.
- Provide a discount on all your plumbing, heating, air conditioning and electrical repairs.
- Maintain and enhance your current level of comfort.

Plumbing Protection Program

The purpose of this program:

- Locate and alert you to potential plumbing problems before they become an emergency.
- Find money wasting leaks.
- Help assure the safe and efficient operation of your water heater.
- Provide you with all your plumbing needs during the year at our special preferred customer "value rate." This is considerably less than what our non-agreement customers pay. Your service technician will be happy to show you your savings.
- Provide preferential emergency service if the need arises for any and all services.
- Provide you with information on available items for the safety and protection of your family.

If any problems are noted during any of our maintenance visits, we will bring them to your attention. Prices will be provided in writing for safe, legal repairs. We can perform these repairs immediately or schedule at your convenience.
